

Heritage Craft Alliance Ltd
Creating futures in our built heritage

HERITAGE CONSTRUCTION TRAINING FOR YOUNG PEOPLE.

The National Traineeship Programme

The traineeships programme supports young people to develop the skills they need to secure and succeed in employment, including apprenticeships.

We introduced traineeships in August 2013 for 16- to 23-year-olds (and young people with learning difficulty assessments up to the end of the academic year in which they turn 25). Further information is available from the [National Apprenticeship Service website](#).

Heritage Craft Alliance Ltd (HCA) has a traineeship programme starting March 2015 covering heritage construction skills.

This programme will last 5 months during which time you will gain experience and accredited qualifications in traditional masonry, brickwork, wood occupations and lime mortars.

Potential students should be between 16 and 24 and have an interest in construction and our built heritage.

You will be placed with a heritage skills contractor to gain hands on live site experience along with training at the HCA centre in North Yorkshire.

The programme will prepare you to undertake an advanced apprenticeship in heritage skills, which will be delivered by HCA.

COURSE OUTLINE

50% of your time will be spent gaining live site experience with an employer within the sector. The remainder of the time will be spent developing skills and knowledge in centre. The accredited training will embrace:

- Lime mortars in building
- Health and safety
- Project methodology

You will gain experience building with stone and brick and undertaking carpentry and joinery tasks.

You will also be given help towards English and Maths to improve numeracy and literacy if this is required.

PROGRESSION

On successful completion of the traineeship, you will be eligible to join the advanced apprenticeship in heritage skills, either in Masonry or wood occupations. *See link for the qualifications:* www.heritagecraftalliance.co.uk
